

Investment Objective

Alterna Private Growth Portfolio seeks to achieve attractive long-term risk-adjusted returns by investing substantially all of its assets in a diversified portfolio of alternative investments, including but not limited to private equity, private credit, and real assets. The Portfolio will invest on a global basis.

Investment Philosophy

Obsiido's investment team follows an 'all-weather' multi-asset, multi-manager investment approach designed to deliver steady and consistent returns over time with low volatility. To meet its objective, the Portfolio invests across a select range of institutional-calibre funds and strategies managed by top-tier investment firms that have undergone extensive due diligence by the Obsiido investment team.

Portfolio Management Team

Obsiido's investment team is comprised of seasoned investment professionals with decades of combined experience in researching, structuring, and managing alternative investment portfolios. The team's expertise spans manager due diligence, asset allocation and portfolio construction across private equity, private credit and real assets. The team's experience is reflected in its long-standing relationships with many of the world's leading alternative investment firms.

To enhance its investment capabilities, Obsiido partners with Asset Consulting Group (ACG), a wholly owned subsidiary of Guggenheim Partners. ACG provides comprehensive investment consulting and investment supervisory services to a select group of institutional investors. ACG provides Obsiido with certain manager research and due diligence services as well as certain capital markets information.

¹ The target net annual return is a forward-looking estimate over a 5-year period and includes distributions. The target is not guaranteed. Actual returns may differ materially due to various factors. The target is based on internal modeling and may be updated from time to time by Obsiido.

² This is the current target strategic asset allocation mix for the Portfolio. The actual asset allocation, at any given time, may differ for a number of reasons, including for tactical reasons. Asset allocation decisions are at the discretion of Obsiido, as the portfolio manager.

³ As of March 31, 2026 and at the master fund level. The Portfolio invests in the master fund either directly or indirectly via other underlying funds.

⁴ Past performance is not necessarily indicative of any future results. Returns shown for Founder Series are total returns (assuming distributions are reinvested). The returns are net of administration fees (0.30%) and management fees. From October 1, 2023 to February 29, 2024, the management fee for Founder Series was waived; from March 1, 2024, to September 2, 2024 half of the management fee for Founder Series was waived (0.25%); and effective as of September 3, 2024, the management fee for Founder Series was reduced from 0.50% to 0.25%. Annualized returns express the rate of return of the series over a given time period on an annual basis. The Sharpe ratio is calculated by subtracting the risk-free rate (in this case, FTSE Canada 30 Day T-bill Index) from the return and dividing by the standard deviation of the returns.
